

# PHAYNY

**Meta  
Quantum Medicine**

[www.phayny.com](http://www.phayny.com)

# 1. For what purpose?

---

Just like traditional allopathic medicine where the structures and foundations are well established. It is necessary to find an alternative, or rather a complementary medicine where patients will be able to find other ways towards the path of healing. Indeed, quantum medicine is more commonly called holistic or natural medicine because it treats the living being as a whole, the physical body and the consciousness. For the understanding of all, the medicine of the future will be based on the Metaverse. As you already know, it is complicated to find a good naturopath because few of them are referenced. A virtual universe in the Web3 where everyone will be able to consult specialists from all over the world. The Phayny network will bridge the gap between the patient and the quantum doctor.

The patient's data will be stored in the blockchain, secure and decentralized.

The doctor will have a virtual world at his disposal, a cabinet, an avatar, all the tools necessary to dialogue with the patient. Slides, medical images, videos, sounds for a holistic approach.

And much more:

The Metaverse opens a field of possibilities around natural medicine. From meditation rooms, to wellness spaces and health walks in hyper-realistic planes. Universes that will transcend your consciousness. Invisible dimensions that will be visible in the Metaverse and thus raise your full consciousness. Basic quantum physics courses will be provided to Phayny token holders to better understand the quantum universe. Internet users will experience it in virtual reality.

# 2. Specialized virtual stores

---

We have provided spaces for Herbalists, essential oils, vitamins, food supplements and accessories. We will select the best suppliers of the market, items that are difficult to get in a traditional store. It will be accessible and deliverable in the whole world.

---

### 3. How it works?

---

Phayny Dapp (decentralized application) register your health record with your SmartPhone and then the data will be collected in the blockchain securely. Then you either share your data to all doctors or select a few of them, according to your own criteria. Then, the quantum doctors will be alerted of your request, according to your criteria, then you will be put in touch with the specialist.

### 4. Gouvernance

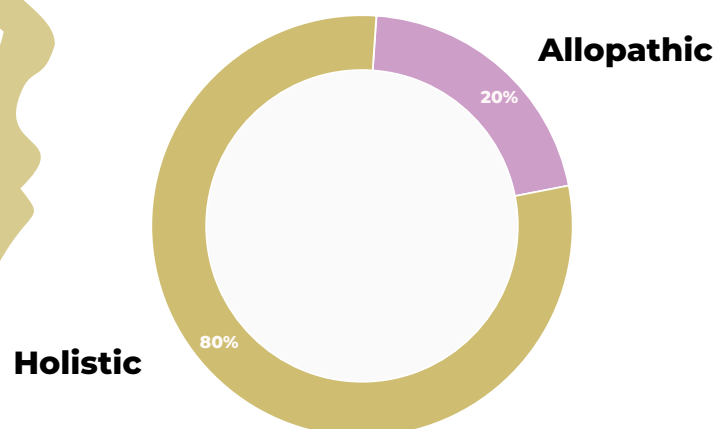

---

Phayny DAO is a Decentralized Autonomous Organization meaning that \$PHN token holders will be involved in the project through an arbitration system (voting). Also token holders will be able to submit ideas to the community, like the doctor and comment.

### 5. Holistic Market

---

The World Health Organization estimates 65 - 80 percent of the population use holistic naturopathic medicine as a primary form of health care. Americans make more visits to holistic health care providers (some 600 million a year) than to M.D.s and spend more money out-of-pocket to do so about \$30 billion a year by recent estimates. Holistic, Metaphysical, Energy or Mind, Body, Spirit healing has existed since the beginning of time amid religious beliefs and practices, along with the mystery, superstition, fear, and misunderstanding

## 6. Technologies

---

Phayny has chosen to follow the new BNB CHAIN blockchain initiated by Binance (bnbchain.world) which will gradually replace the current BSC, bringing together the metaverse, DeFi, NFT and SocialFi under the same roof. A major breakthrough in the world of blockchain.

BNB CHAIN operates a paradigm shift called MetaFi, a new advanced and sophisticated infrastructure. This future global ecosystem enables seamless interoperability between different blockchains. Thus, building the Meta Quantum Medicine (MQM) platform will have all the features needed to create the MQM universe. This holistic approach allows to touch all aspects of the virtual universe.

Moreover, the gas fees are very cheap, accessible to the greatest number without breaking your wallet

## 7. QuantumNFT

---

We will call on artists for a series of collections related to the world of Quantum Physics. The works will be sold in the QuantumNFT section

## 8. Charity program

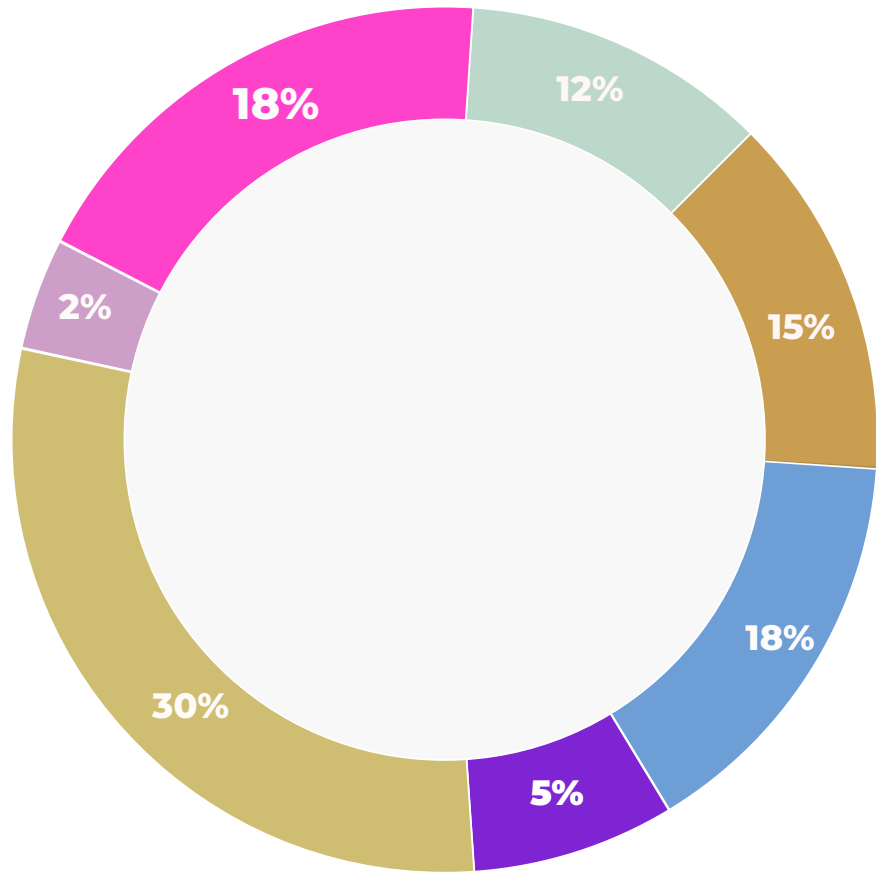

---

We have decided to open a donation wallet, the community will decide afterwards the destination of the donations. For each purchase in the Holistic store, NFT, 1% will be donated to the charity fund.

---

## 9. Token distribution

---

- Public sale
  - Pre-sale
  - Ecosystem development
  - Charity
  - Marketing / Airdrops
  - Team
  - Treasury
-

Max Supply: 1,000,000,000  
Quantity \$PHN for sale: 320,000,000  
Softcap: \$600,000  
Hardcap: \$29,600,000  
Accepted currencies : BTC,ETH,USDT, BUSD, USDC  
Network : BEP-20

<b>SEED 1</b>	<b>SEED 2</b>	<b>PUBLIC</b>
